Figure 1 is a scatter plot showing the time series of the difference between the estimated and true values of the parameter α . The y-axis ranges from -0.050 to 0.050. The x-axis shows months from April to January. Data points are plotted for April, May, June, July, August, September, and October, all showing a difference of 0.000. A vertical dashed red line is at the end of the series.
