The graph displays the daily number of COVID-19 cases in the Netherlands from September 1, 2020, to April 1, 2021. The y-axis is labeled 'Number of cases' and ranges from 0 to 20. The x-axis is labeled 'Time' and shows months from Sep to Apr. Two vertical dashed red lines are present at approximately September 10 and September 25. The data shows a peak in early September, followed by a decline and then a period of relative stability with minor fluctuations. A significant spike is visible in early April.
