The scatter plot displays the number of days with precipitation per month. The y-axis represents the number of days, ranging from 20.6 to 21.4. The x-axis shows months from July to April. Data points are black dots. Vertical dashed red lines are present at approximately September 28 and October 28. The data shows a general upward trend in precipitation days over the period, with a significant increase in late October.

Month	Approximate Date	Days with Precipitation
July	July 15	20.61
July	July 20	20.61
July	July 25	20.61
August	August 15	20.61
August	August 20	20.61
September	September 28	21.40
October	October 28	21.40
April	April 1	21.40

Figure 1 is a scatter plot showing the time series of the difference between the estimated and true values of the parameter α . The x-axis represents time, with labels for Jul, Oct, Jan, and Apr. The y-axis represents the difference, ranging from -0.050 to 0.050. The plot shows several data points clustered around zero, with two vertical dashed red lines indicating specific time points.
