The graph displays the daily count of COVID-19 cases in the United States. The y-axis is labeled with values 0, 5, 10, and 15. The x-axis is labeled with months: Oct, Jan, and Apr. The data shows a major peak in early 2020, followed by a period of low activity until late 2021, when another major peak occurs, reaching approximately 15 cases. The graph is divided into three sections by two vertical dashed red lines.

The graph displays the daily number of COVID-19 cases in the Netherlands. The y-axis is labeled 'Number of cases' and ranges from 0 to 15. The x-axis is labeled 'Date' and spans from March 2020 to April 2021. A prominent peak occurs in early March 2020, reaching nearly 17 cases. This is followed by a sharp decline to near zero by mid-March. The data then shows a period of low activity with several small peaks, notably around October 2020 and January 2021. Two vertical dashed red lines are drawn at approximately March 15, 2020, and March 25, 2020, likely indicating specific public health interventions or milestones.
