B530-A-% rCV

The graph displays the daily number of COVID-19 cases in the Netherlands. The y-axis is labeled 'Number of cases' and ranges from 0 to 10,000. The x-axis shows the months from September to April. A vertical dashed red line indicates the start of the lockdown in November. The data shows a sharp initial peak in late September, followed by a period of fluctuation with a peak in late October. After the lockdown, the number of cases drops significantly and remains low, with a small spike in late March.
