The graph displays the daily number of COVID-19 cases in the Netherlands from October to April. The y-axis represents the number of cases, ranging from 0 to 20. The x-axis shows the months: Oct, Jan, and Apr. A red dashed vertical line is positioned at approximately January 1st, indicating the start of the second wave. The data shows a significant peak in cases around late January/early February, reaching over 20 cases, followed by a sharp decline and a subsequent rise in late March/early April.
