The graph displays the daily number of COVID-19 cases in the Netherlands. The x-axis is labeled with months: Oct, Jan, and Apr. The y-axis ranges from 0 to 20. A vertical dashed red line is positioned at approximately November 20, 2020. The data shows a first wave peaking at about 14 cases in late November, followed by a decline to around 7 cases by January. A second, much larger wave begins in late January, peaking at over 20 cases in early February, before declining again.
