The graph displays the daily number of COVID-19 cases in the United States. The y-axis is on a logarithmic scale, with major ticks at 100,000 and 1,000,000. The x-axis spans from October to April. A red dashed vertical line is positioned at the end of December. The data shows a significant peak in early January, exceeding 1,000,000 cases, followed by a period of relative stability and then a slight upward trend towards the end of the period shown.

The graph displays the daily count of COVID-19 cases in the United States. The y-axis is labeled with values 0, 5, 10, 15, and 20. The x-axis is labeled with months: Oct, Jan, and Apr. A red dashed vertical line is positioned at the beginning of the data series in early 2020. The data shows a significant peak of over 20 cases in early 2020, followed by a sharp drop and a period of relative stability around 5 cases through April 2020.
