The graph displays the daily number of COVID-19 cases in the United States. The y-axis is labeled 'Number of cases' and ranges from 0 to 20. The x-axis is labeled 'Time' and shows months from March to April. A vertical red dashed line is positioned at approximately March 2021, and another vertical red dashed line is positioned at approximately March 2022. The data shows a significant peak in cases in March 2020, followed by a decline and then a period of relative stability with minor fluctuations. A sharp increase in cases is visible in March 2022, reaching a peak of over 20 cases.
